## EPISODE 1

### FROM POINT TO LINE, TO CIRCLE

By Marco Alemar - 2022

DURATION 6 MIN

The ZOO LOR, the colorful animals, come walking through your colorful world and enter a pink field, and you can see, little black dots scattered on the floor and all over things. They keep walking, researching and observing the world of ZOO LOR, looking at the small dots on the ground. They gather around some points. FANTERELO starts looking one by one, the small dots scattered on the floor. He watches, especially one that shimmered. When he got close, he tapped his trunk on the spot. But nothing happened. But the moment he touched it a second time, and PETO touched another stone at the same time, the stones created a line between them. They had fun making the lines appear after clicking on one point and the other at the same time... They made several lines. with several different combinations, and danced the Line Dance. While following the dance, some lines start to creep along the way. Whitey, looks at the lines moving away and warns all his friends. They walk out behind the lines down the path in the field. When reaching a square between the trees, the lines begin to make different movements, with the points moving. And they're moving around, squirming like that until they meet at the same starting point. And so they form a circle. Suddenly the field is full of circles. Our friends are happy.

## EPISODE 2

### FROM THE CIRCLE TO THE SPHERE.

By Marco Alemar - 2022

DURATION 6 MIN

VERGUIN picks up one of the circles lying on the floor and lifts it up. And does a circle stand? Each of our little friends raises a circle. And other games begin! until Whitey decides to jump inside a circle... When he jumps inside the circle, passing through it, the circle fills with a color, forming a solid, a flat circle. WHITE jumped, the circle turned white, then VERGUIN jumped, the circle turned green. Then FANTERELO, then PETO. And all the circles floated around them. assembling a beautiful mosaic, of colored circles! And as if that weren't enough, FANTERELO accidentally leaned his trunk against one of the flat circles. And the circle didn't take off from his trunk. So he decided to blow and fill with air and the circle, he inflated, and turned into a beautiful ball. A sphere! and all the circles turned into spheres and floated in the sky.

### EPISODE 3

#### FROM POINT TO LINE, TO SQUARE

By Marco Alemar - 2022

DURATION 6 MIN

The ZOO LOR, the colorful animals, come walking through their colorful world and enter an orange terrain, and they can see small black dots scattered on the floor and all over things. They keep walking, researching and observing the world of ZOO LOR, looking at the small dots on the ground. They gather around some points. BUTTERFLY starts looking one by one, the small dots scattered on the floor. She notices, especially one, that flickered when she got close. He tapped his antenna on the spot. But nothing happened. But at the moment. when she touched it a second time and TURTLE touched another stone at the same time, the stones created a line between them. They had fun making the lines appear after clicking on one point and at the same time making several lines, with several different combinations. And they danced the Line Dance. While following the dance some lines begin to follow the path. JACARE, watch the lines moving away and warn all friends. They walk out behind the lines along the way. When arriving at a square in NO TERRENO, the lines start to make different movements, with the points moving. And they're moving in straight lines, crossing each other and bending at 90-degree angles. squirming like this until they meet in 4 points at the same time. And so they form a square. Suddenly the field is full of squares. Our friends are happy.

### EPISODE 4

#### FROM SQUARE TO CUBE.

By Marco Alemar - 2022

DURATION 6 MIN

JACARE picks up one of the squares lying on the floor, and lifts it up. Each of our little friends raises a square. And other games begin! Place one square after another and create a tunnel! After everyone goes through the tunnel, they realize that the last square had turned into a plane and blocked the passage... they remove it and the next one also transforms and so on with all the squares until they all become planes scattered across the surface. They raise several planes and start touching the sides of each plane, one by one, until they join 6 planes and form a cube!

Stack cubes and make a small ladder to reach a flower made of cubes...

## EPISODE 5

### FROM POINT TO LINE, TO TRIANGLE

By Marco Alemar - 2022

DURATION 6 MIN

the ZOO LOR, the colorful animals, come walking through their colorful world and enter a GREEN terrain and can see small black dots scattered on the floor that were always grouped in three points. They were scattered all over the place. They keep walking, researching and observing the world of ZOO LOR, looking at the small dots on the ground. They gather around some points. ORANGUTAN starts looking one by one at the little dots scattered across the floor. He notices, especially one, that flickered when he got close. He touched his hand to the spot. But nothing happened. But the moment he touched the second time, and PENGUIN AND PIG touched the other stones at the same time, the stones created a line between them. They had fun. making the lines appear after clicking on one point and on the others at the same time they made several lines, with several different combinations. And they danced the Line Dance. While following the dance some lines start to follow the path. PIG, watches the lines moving away and warns all friends. They walk out behind the lines along the path. When reaching a square on the ground, the lines start to make different movements, with the points moving. And they move in straight lines, crossing and bending at angles. Writhing like this until they meet in 3 points at the same time. And so they form a TRIANGLE. Suddenly the field is full of TRIANGLES. Our friends are happy.

## EPISODE 6

### FROM TRIANGLE TO PYRAMID.

By Marco Alemar - 2022

DURATION 6 MIN

PIG picks up one of the TRIANGLES lying on the floor, and lifts it up. Each of our little friends raises a big TRIANGLE. FANTERELO also joins the gang to play. And other games begin! They form several different types of triangles. Put a TRIANGLE next to the other, and discover that if you put the ends of 4 triangles together, they form a PYRAMID! Many games begin, creating pyramids in various ways.... until ORANGUTANTO makes an inverted PYRAMID. PIG puts a PYRAMID on top of it forming a beautiful BALLOON that starts to float! Everyone creates BALLOONS and goes flying!

## EPISODE 7

### FROM PYRAMID TO CYLINDER TO CONE

By Marco Alemar 08/19/2020

DURATION 6 MIN

The ZOO LORS come levitating in BALLOONS made of PYRAMIDS... the balloons begin to spin in space. The speed is increasing... The ZOO LORS are already on the ground watching the balloons spin at speed and notice that the base of the balloons soften until they are rounded. The pyramid descends to the ground, but now it is a CONE!. The ZOO LORS have fun getting inside the cone and sliding down like a toboggan. Some of the cones that spread out, begin to melt, and increase their apex until it becomes the size of the larger base, forming a CYLINDER and hardens! Cones and cylinders scattered around the scene. PENGUIN puts a cylinder on top of a cone and forms a PENCIL! Everyone makes a pencil, and they leave mounted on the pencils leaving tracks on the floor of the color of each pencil.

## EPISODE 8

### FROM THE CIRCLE, THE WHEEL, TO THE TORUS.

By Marco Alemar - 2022

DURATION 6 MIN

The ZOO LORS, when arriving at a square in the forest, following the lines, observe that they begin to make different movements, with the points moving in a circular motion. And they're moving around, squirming like that until they meet at the same starting point. And so they form a circle. Suddenly the field is full of circles. Our friends are happy. They put the circle on their waist and dance the hula hoop. The circles thicken and become the thickness of tires. The friends roll around inside the tires, until they reach the water's edge. FANTERELO blows with his trunk into each tire and they inflate and become like buoys. He throws the tires in the water and the friends go floating and having fun!

created by MARCO ALEMAR **WGAWEST** Registry: 2174132

## EPISODE 9

### All GEOMETRIC SHAPES

By Marco Alemar 08/19/2020

DURATION 6 MIN

ZOOLOR enters a valley, with various geometric shapes scattered across the landscape. Trees made of spheres and trunks of cubes, mountains made of cones and stones of triangles.

A black ball, a red cube and a yellow triangle appear.

They come to ZOOLOR to ask for help because they can't enter their houses because the entrance doors had changed shape. The cube didn't go in because its door was rounded, and the little sphere didn't go in because the door had turned into a triangle... just like the pyramid also had problems.

ZOOLOR , with lots of music, dance the Dança das Portas and put everything in its place.

## EPISODE 10

### FREE FORMS 1 - DESIGN

By Marco Alemar - 2022

DURATION 6 MIN

The screen is all white. All things in the landscape are white. The ZOOLOR arrive mounted on their colored pencils. Two little eyes appear on the white of the screen. White becomes a character. He shows PENGUIM and ZOOLOR that the white needs to be painted. The ZOOLOR begin to paint each object with their colors. The trees, the clouds, the sky, the leaves and the stones.

In the end everything is colored and WHITE turns into a beautiful Rainbow.

## EPISODE 11

### FREE FORMS 2 - SCULPTURE

By Marco Alemar - 2022

DURATION 6 MIN

PORCO is the busiest of them all and being on hold is not easy. It doesn't take long for him to pick up a tree branch to have something to do with his hands. He ends up unrolling the branch and making a strip. BUTTERFLY, who has been distracted trying to come up with an idea, is almost startled when PIG starts to blindfold her. When our eyes are closed we have to see with our hands! PIG, ELEPHANT AND DUCK have fun attracting their friend's attention with noises. But as soon as she approaches, they take a few steps to the side, causing her to grab only the wind with her hands. Enter another terrain. The terrain they enter is a modeling clay forest, they realize that the terrain they walk on is different... PATO, finds it interesting to play with some pieces of the ground. In a short time, a new shape appears by squeezing here and there, discovering that modeling is groping the clay until you find a familiar shape.

First they make an elephant with a pig's snout and a duck's beak just to play with BUTTERFLY that is blindfolded. And then they make a big BUTTERFLY out of play dough! BUTTERFLY is happy!
